Bremen is located in northwestern Germany, approximately 60 kilometers from the North Sea. Bremen City and Bremenhaven City together form the state of Bremen.

The Brothers Grimm's famous fairy tale "The Musicians of Bremen" invited the world's students: "Come, let's go to Bremen!"

Bremen is an ideal place to study. Bremen is big enough to host all kinds of large cultural events; Bremen is small enough to be easily accessible.

The public transport system is very convenient, making travel more time-efficient and secure.

There are countless historical sites, a shopping paradise, cultural activities all year round — Bremen never gets boring. The 1200-year history has bred Hanseatic Heritage, creating a receptive cultural style. Bremen and her sister city Bremenhaven (the giant port city) together form Bremen State. Bremen State is the smallest of the 16 federal states in Germany, with a population of approximately 660,000.

If you want to get out of Bremen: The city is located at the doorstep of Bremen Airport, providing convenient transportation to explore Europe.

Established in 1971, Bremen University is dedicated to exploring new teaching and research methodologies, a university of change. Over the past 30 years, Bremen University has become the regional center for Northern Germany. Currently, there are over 1600 researchers and 19,000 students studying at our university.

Bremen University offers a variety of English-taught master's and doctoral programs, 100+ German-taught bachelor's and master's programs for you to choose from. Whether you apply for natural sciences, languages, or social sciences, Bremen University provides you with a wide range of choices. All of the courses are internationally recognized. Some courses are at the international top level, exclusive to Bremen.

The international courses are closely integrated with the university's cutting-edge research, enabling students to gain practical experience. The university provides support and training for internships and overseas study programs. The Foreign Language Center provides various foreign language courses.

The bachelor's theses are usually integrated into the academic group, closely linked with research. Our international office and student advisor provide dedicated support and services, assisting you with all formalities and allowing you to adapt quickly to the new learning environment. You can also have a campus visa, and dine in one of the best university canteens in Germany. Come and experience the diverse and vibrant campus!
