

**Graduation of Master students who started in winter term 2010/2011**

Date of Defence	Name of student	Title of thesis	Position after finishing thesis
23.10.13	Beck Anne Kathrin	Augmentation of rodent affiliative behavior by novel pro-social oxytoxins like compounds	PhD MH Hannover
06.03.13	Drebitz Erik	Dynamic Attentional Modulation of Coherent Oscillatory Activity by Selective Spatial Attention in Area V4 of Macaque Visual Cortex	PhD Kreiter, Bremen
Aug 2014	Faiz Saqib	Modulation of inflammatory evans in models of Alzheimer's disease	PhD Uniklinik Bonn
24.04.13	Frega Josette	The relationship between impulsivity and startle: do high levels of impulsive action predict prepulse inhibition deficits of the acoustic startle response in rats?	Probably industry
03.09.13	Hanken Katrin	Fatigue in Multiple Sclerosis Patients – a Result of Reduced Histamin Modulation in the Brain?	Researcher Klinikum Bremen-Ost followed by PhD (department Neurology)
17.01.13	Harnack Daniel	A model for selective visual attention predicts information reouting through coherence	PhD Ernst, Bremen
04.04.12	Hielscher Astrid	Subjective ratings and neural processing in an fMRI task	Study of medicine in Berlin
29.01.13	Kukovic Maja	Performance of silicon based microprobes in extracellular recordings in the primary visual cortex of the rat	Looking for a PhD position
02.11.12	Laumen Geneviève	Effects of memantine on the glial scar formation and motor deficits induced my mechanical damage to the motor cortex in rats	PhD position University of Oldenburg, working group Animal physiology and behaviour
18.02.13	Penner Sergej	Influence of the Glial Scar Formation in the Motor Cortex on Behavioural Performance and Activity in Rats: Effects of Memantine Treatment	Probably industry
15.02.13	Pochopien Klaudia	On the influence of inter-modal signals on prism adaptation in humans	PhD Fahle
12.02.13	Schledde Bastian	Investigation of dynamic attentional modulation using multielectrode recordings in monkey area MT	PhD Wegener
22.11.12	Schmitt Nadine	Development of a Surface Integration Model	Job in industry
23.10.12	Siemann Julia	On the interaction of attention and stroop interference processing – an event-related potential study	PhD Herrmann
27.11.13	Sommerfeld Anne	Temporal Devaluation of Food in a Pseudorealistic Condition in Obese Women and Healthy Controls: An fMRI Study	PhD University of Göttingen
31.10.12	Staden Mareike	Effects of MDMA in impulsive decision-making and sensorimotor gating mechani	Pharma Industry
15.11.12	Thiedemann Christian	Randomized, single-blinded, controlled parallel group study for investigation of generalized and local cryotherapy in restless legs syndrome	External PhD University of Bremen (Hospital Bremen Ost and Münster)
13.12.12	Tömen Nergis	Attention improves information processing by tuning cortical networks towards critical states	PhD Ernst
02.10.12	Wernecke Kerstin	Effects of inter-basolateral amygdala infusions of the 5-HT2A/C receptor against DOI on impulsive choise in rats	PhD in Magdeburg
