

**Graduation of Master students who started in winter term 2015/2016**

Date of Defence	Name of student	Title of thesis	Position after finishing thesis
23.11.2017	Brockmeyer Markus	Understanding oxygenation and mitochondrial function in the central nervous system using near infrared spectroscopy to monitor disease and regulate therapy	Research position UCL London, looking for a PhD in London
09.10.2017	Faesel Nadine	Role of orexin in CCK-4 induced panic	PhD Koch Bremen und Fendt Magdeburg
27.02.2018	Hnida Marilena	Longitudinal behavioral studies and immunohistochemical detection of the microglia-marker-protein Iba-1 in the LPS-model for schizophrenia in rats	PhD UKE Hamburg
19.02.2018	Huehne Anisja	Role of enhanced 2-AG signalling on food intake in mice deficient in cannabinoid CB1 receptors in different neuronal subpopulations	PhD LMU München
10.10.2017	Kop Nelli	Multisensory integration in grapheme-color synesthesia investigated by the audio-visual flash illusion: A MEG study	Apprenticeship for psychotherapist
19.02.2018	Kraus Lisa	Binaural masking effects	Working in an eye care practice
18.09.2017	Lüdtke David	Modulated decision-making in quasi-realistic violent group action scenarios – an EEG-study	Data Scientist Osnabrück
30.01.2018	Matusche Britta	Structural consequences of Tau-pathology in Alzheimer's disease	PhD Uniklinik Essen
26.10.2017	Mohammadzada Freschta	Modulation of brain excitability with brain-state dependent brain stimulation	Presently Research Assistant, as from Sept. 2018 PhD Wenderoth, ETH Zürich
19.09.2017	Rausch Lukas-Paul	Efficiency of afferent signal transmission between visual area V2 and V4 in the macaque monkey is causally dependent on the phase of the V4 gamma oscillations	PhD Kreiter, Bremen
27.09.2017	Renner Simon	Simulating homeostatic plasticity in the vestibule-ocular reflex	PhD LMU München
15.01.2018	Roth Vanessa	Regulation of the PGC-1alpha dependent mitochondrial biogenesis in the experimental autoimmune encephalomyelitis	PhD UKE Hamburg
10.10.2017	Sangarapillai Nevethini	Investigating TGR5 membrane receptors after focal cerebral ischemia	PhD Schwarting Marburg
14.11.2017	Schill Jana	Naming and recognition as diagnostic tools in Alzheimer's dementia	Study of Neurocognitive Psychology Master in Oldenburg; looking for PhD in the field of Clinical Research as from October 2018
11.01.2018	Schünemann Maik	Embedding critical subnetworks into the EHE model	PhD Ernst, Bremen
02.03.2018	Viering Tammo	Attentional effort in a sustained attention task: A fMRI study with healthy participants and a patient with ADHD	Looking for PhD in Oldenburg/Groningen
17.05.2018	Voigt Charlene	Effects of deep brain stimulation in the centromedian-parafascicular nucleus on neuronal activity after apomorphine: Electrophysiological study	Study of veterinary medicine in Hannover
