

Graduation of Master students who started in winter term 2016/2017

Date of Defence	Name of student	Title of thesis	Position after finishing thesis
12.09.2019	Akinola Esther	Longitudinal phenotyping of the DAT-tg model with relevance to repetitive disorder	Looking for PhD
08.08.2019	Xiao Chen	Explaining transient neural responses and their modulation by attention: Modelling, formal analysis and comparing to physiological data	Looking for a job in China
24.01.2019	Claussen Kristin	Investigating the effect of memantine containing electrode coatings on the foreign body response	PhD position group of Prof. Masseck
13.12.2019	Deking Lilian	Intrasubthalamic muscimol microinjection as an alternative treatment option for intractable epilepsies: Investigations in an acute rat seizure model	Not known yet
10.09.2018	Doehring Niels	EEG Source Analysis (LORETA) on Stroop Interference Data: Individuality and Mental Strategies	PhD position group of Prof. Herrmann
29.05.2019	Gücer Sena	Characterization of functional properties of microglia in mice infected with <i>Trypanosoma brucei</i> , a model of African trypanosomiasis	Looking for a PhD abroad
06.09.2019	Hannack Cora	Investigation of the modification of glycolytic flux by modulations of the mitochondrial activity in glial cells	Not known yet
18.09.2018	Helgers Simeon	Cognitive function and neuronal activity in the prefrontal cortex after lesion of the fastigial nucleus in rats	PhD position MHH
15.10.2018	Mayer Carola	The association of white matter hyperintensities and cortical thickness of the temporal lobe	PhD position UKE (research on stroke)
19.09.2018	Möckel Jana	feedback anticipation - a behavioral and electrophysiological pilot study	Team assistance Charité Berlin, with the option of a PhD position
18.10.2019	Müller Leonie	Characterisation of Piezo1 modifiers in neurons	PhD position Newcastle University
04.04.2019	Öhlmann Hanna	The Effect of Conventional Transcutaneous Electrical Nerve Stimulation on Pain-Related Evoked Potentials and Conditioned Pain Modulation	PhD position Institut für Medizinische Psychologie und Verhaltensimmunbiologie der Uniklinik Essen
17.06.2019	Schmittwilken Lynn	Deep learning to unlock Bouma's window	PhD Berlin
15.03.2019	Veiz Elisabeth	Establishing electroclinical biomarker in neuromuscular diseases	PhD Universitätsmedizin Göttingen, Dept. of Clinical Neurophysiology
01.11.2018	Vetter Leonie	Role of the median eminence and other circumventricular organs in the pathogenesis of a neurotropic parasite infection	PhD position Karolinska Institute , Stockholm (research on malaria disease)
19.12.2019	Woldt Tobias	Recording from Macaque Monkey Frontal Eye Fields with an multicontact electrode during attention	PhD position in Oldenburg
