

Dr. Sebastian Schulenberg, LL.M. (Cambridge)

**The EU between Crisis Management, Democracy and the Rule of Law Principle**

The seminar "The EU between crisis management, democracy and the rule of law principle" addresses current legal issues in European Union law. It aims to demonstrate the connection between the ongoing unification process of the European Union, fundamental constitutional principles such as "one man, one vote" and "no taxation without (equal) representation," and the pressure to act arising from diverse crises. This legal seminar requires in-depth knowledge of European Union law.
