

UBremen Summer Campus 2025 in Business Studies and Economics

Program

The **Summer School Business Studies and Economics** includes courses on undergraduate level. We suggest all students choose at least two courses. Every course has 6 ECTS credits. Students study together with Bremen and international students as the courses take place during the regular semester.

The course list is constantly updated here: <https://uni-bremen.de/en/wiwi/studies/summer-school>

The **Language and Cultural Training** practices the intercultural awareness through training and group tasks in English and German. Students learn German in online lessons during the semester and apply their new language skills in the final presentations. The Language and Cultural Training has 6 ECTS credits.

In cooperation with firms from the region we offer the **PRAXIS Summer Camp**, a project-based course in which the students work on real life problems in international student teams. Depending on the firms' structures and equipment, the students are offered a working room in the firms' buildings or work self-organized on campus. There is a contact person from the firm for every team and a lecturer from university supervises the project work. Final presentations take place in the firms and at university. The PRAXIS Summer Camp has 6 ECTS credits. Certificates are provided.

The workload of the program is fulltime and attendance is expected in all courses.

Housing

The Faculty can no longer provide accommodation on campus. Students are free to find their own apartment in Bremen. The University of Bremen is located in the Northeast of Bremen. A list of districts that are advisable can be provided, if needed. With the public transportation it is really easy to get to the campus from everywhere in or around the City of Bremen. Starting the search for an accommodation early is highly recommended.

For more information see: www.uni-bremen.de/en/university/campus/housing/

Other Information

Bremen is an inspiring and green city. After Hamburg, it has the second biggest seaport in the North of Germany. There is a great offer of culture and leisure as well as night life. The UBremen Summer Campus comprises an accompanying program, i.e. excursions to firms and cultural events. Further events are planned in accordance with the group.

The University's International Office helps organize the stay regarding official processes. Student tutors and the Office of International Relations at the Faculty of Business Studies and Economics offer guidance regarding the program.

The whole program is supposed to be international, i.e. all lectures and team work are attended by German and international guest students.

Please check <https://bremen.eu> for information on the City of Bremen and <https://uni-bremen.de/en/university/profile/international> for information on the international profile of the University of Bremen.
