Module 07-WW-BA-37-140: Personal und Organisation

Human Resource Management and Organization

Assignment to areas of study:

- Business Studies

Content-related prior knowledge or skills:

none

Learning content:

The course focuses on the basic concepts of human resource management and their application to practical phenomena.

Topics include

- Theoretical approaches to personnel and organization
- Strategic human resource management
- Personnel planning, recruitment, and selection
- Personnel planning and job design
- Leadership
- Personnel developmen

Learning outcomes / competencies / targeted competencies:

After completing the module, students will be able to...

- ... recognize, classify and differentiate between the most important approaches of personnel management.
- ... critically question established approaches of personnel and organizational management and apply them to practical problems.
- ... solve unstructured situations that companies encounter in the course of organization and/or personnel management on the basis of established theories.

Calculation of student workload:

26 h Exam preparation

28 h SWS / presence time / working hours

63 h Preparation / follow-up work

63 h Self-study

Are there optional courses in the modules?

no

Language(s) of instruction:

German

Responsible for the module:

Prof. Dr. Julia Maria Kensbock

Frequency:

winter semester, yearly

Duration:

1 semester[s]

The module is valid since / The module is valid until:

Module 07-WW-BA-37-120: Marketing Marketing

Assignment to areas of study:

- Business Studies

Content-related prior knowledge or skills:

none

Learning content:

- Marketing principles
- Environment and market of the enterprise
- Marketing decision and marketing conception
- Market segmentation
- Product and marketing mix
- Pricing
- Promotion
- Distribution
- Strategic marketing
- Branding
- Marketing coordination

Learning outcomes / competencies / targeted competencies:

Students have a basic knowledge of marketing principles and are able to apply it. They gain knowledge about conceptual basics, frameworks, strategic decisions, marketing instruments and coordination. This methodical knowledge provides students with the ability to analyze and solve decision problems in the context of marketing.

Module 07-WW-BA-37-110: Rechnungswesen und Abschluss

Accounting and Accounts

Assignment to areas of study:

- Business Studies

Content-related prior knowledge or skills:

None

Participation in the Preliminary Accounting & Financial Statements course is recommended.

Learning content:

- Introduction
- Double entry book-keeping
- General IFRS valuation rules
- Fundamental reporting problems (immaterial and material assets, current assets such as debtors and stocks, liabilities)
- Gains, profits and losses
- Statement of changes in equity
- Cash flow statement

Learning outcomes / competencies / targeted competencies:

Students will know the most important reporting instruments, the norms governing the reporting process and the pertaining definitions. Students can apply their knowledge to practical cases, can prepare basic reporting instruments and can evaluate them. Students are further familiar with the most important definitions of IFRS accounting. They can reproduce the pertaining accounting rules, can apply them to real-world cases and are able to draw up reporting instruments. The most familiar problems of financial reports are known and can be identified for single events.

Module 07-WW-BA-37-150: Wertschöpfungsprozesse

Value Creation Processes

Assignment to areas of study:

- Business Studies

Content-related prior knowledge or skills:

none

Learning content:

The general structure of the course is as follows:

- Introduction to production, sourcing, logistics
- network design and transport planning
- demand forecasting
- deterministic inventory management
- stochastic inventory management
- portfolio models for material management
- Aggregate Planning
- Master Production Schedule
- Material Requirement Planning
- Scheduling

Learning outcomes / competencies / targeted competencies:

The students should know and understand the design and planning possibilities in production and logistics as well as understand, present, evaluate and develop their own suggestions for solutions.

Module 07-WW-BA-37-130: Finanzierung und Investition

Finance and Investment

Assignment to areas of study:

- Business Studies

Content-related prior knowledge or skills:

none

Learning content:

This seminar deals with the basic principles of corporate finance. First, it gives an introduction in corporations, their governance and the role they play on capital markets. Core topics of the seminar are time, money, arbitrage and interest rates. Students learn how to analyze investment projects and how to finance them. Different discounted cash flow methods are introduced. Finally, we will discuss principles of equity and debt financing, financial instruments, and principles of financial management. The basic outline of the lecture is as follows:

- The corporation
- Introduction to financial statement analysis
- Financial decision making and the law of one price
- The time value of money
- Interest rates
- Valuing bonds
- Investment decision rules
- Fundamentals of capital budgeting
- Valuing stocks

Learning outcomes / competencies / targeted competencies:

Students learn basic principles of corporate finance and can apply their knowledge to elementary problems.

Calculation of student workload:

Module 07-WW-BA-37-161: Unternehmensbesteuerung

Company Taxation

Assignment to areas of study:

- Business Studies

Content-related prior knowledge or skills:

none

Learning content:

This course presents different types of taxes concerning companies and shareholders. The focus is on successful taxation of joint partnerships and corporate entities. Students should afterwards be sensitive to tax effects in economic decisions.

Learning outcomes / competencies / targeted competencies:

After having attended the course, students will be familiar with possible structures of business taxation. They will be able to describe its economic qualities. They will understand elementary economic tax effects. They will be able to solve taxation scenarios and have a critical view on results. Students will judge value concepts of company taxation.

Module 07-WW-BA-35-310: Mikroökonomie

Microeconomics

Assignment to areas of study:

- Economics

Content-related prior knowledge or skills:

none

Learning content:

Based on basic microeconomic concepts and assumptions, we start the lecture by introducing partial equilibria models in consumption and production theory. Next, we focus on microeconomic decision theory and address the transition from partial to general equilibria models. Building on these insights, we discuss the occurrence of market failures due to asymmetric information and related issues such as the role played by knowledge, learning and innovation. Finally, we provide a brief introduction into basic game-theoretical concepts, network theory as well as complex system approaches.

Learning outcomes / competencies / targeted competencies:

The lecture introduces basic concepts of microeconomic theory. The neoclassical standard framework is complemented by a discussion of contemporary theoretical advancements. Students attending this course will gain a comprehensive overview of economic concepts and models that explain the behavior of economic actors at the micro-level.

The contents covered by the lecture will be deepened in an exercise course on the basis of examples. In the tutorial courses students themselves will apply previously introduced concepts under the guidance of tutors.

Calculation of student workload:

Module 07-WW-BA-35-320: Makroökonomie

Macroeconomics

Assignment to areas of study:

- Economics

Content-related prior knowledge or skills:

It is recommended to have completed the module "Microeconomics". In addition, we assume sufficient basic knowledge of mathematics and statistics.

Learning content:

- Introduction
- National Accounts
- Goods Market
- Money and Financial Markets
- Taylor Rule
- Time inconsistency of Monetary politics
- Labor Market
- Phillips Curve
- Expectations
- IS-LM-PC Model
- Financial and Economic Crises

Learning outcomes / competencies / targeted competencies:

The lecture provides the students with the necessary tools in order to analyze the short-run and medium-term impact of economic policy in closed and small open economies. The students acquire a comprehensive knowledge of the functioning of goods, money, financial and labor markets from a macroeconomic perspective. The effectiveness of monetary and fiscal policy measures is assessed with respect to its success in reducing unemployment and inflation, and in stabilizing the economy.

Module 07-WW-BA-35-330: Wirtschafts- und Finanzpolitik Economic and Fiscal Policy

Assignment to areas of study:

- Economics

Content-related prior knowledge or skills:

It is recommended to have completed the module "Microeconomics".

Learning content:

The content of the course follows the lecture's outline:

Chapter 1: Basics of Economic and Fiscal Policy: Goals, Institutions, and Instruments

Chapter 2: Market and Efficiency – The Welfare Economic Reference Model

Chapter 3: Reasons and Problems of Public Provision of Public Goods

Chapter 4: Externalities and State Intervention

Chapter 5: Indivisibilities and State Intervention

Chapter 6: Asymmetric Information and Economic Problems

Chapter 7: Public Budget and Budget Cycle

Chapter 8: Introduction to Economic and Fiscal Policy in Federal Systems

Chapter 9: Basics of Taxation: Tax Rate, Tax Impact, and Tax Incidence

Chapter 10: Basics of Public Debt

Learning outcomes / competencies / targeted competencies:

The lecture "Economic and Fiscal Policy" provides students a comprehensive introduction to the economic activities of the state and addresses specific problems of economic and fiscal policy. From a theoretical perspective, the course deals with economic foundations of state activities and provides an entry into public finance. Beside the presentation of goals, institutions and instruments of economic and fiscal policy, the analysis of market processes and clarification of sources of market failures will be shown. In addition, the lecture introduces foundations of economic and fiscal policy in multilevel systems. In particular, the public budget and the budget process is particularly relevant.
