Talks on economic and legal issues of digitization

As part of the seminar "**How digital business models and technologies are changing the economy and law**", which is held by Dr. Sonja Mangold, some talks will take place. All interested are welcome.

On **Thursday, May 19, 2022**, **Elisa Palacios Carillo** will give a lecture on **crowdfunding**. Mrs. Carillo works as a crowd agent for the platform company **Startnext**.

On **Thursday, June 2, 2022**, **Eliza Stenzhorn** will be a speaker in the seminar. Eliza Stenzhorn is a research associate at the University of Bremen's Department of Business Studies and Economics. She will present her current research on the **portability of crowd worker reputation**.

On **Thursday, June 19, 2022**, **Fabian Pohl** will give a lecture on **blockchain technology**. Fabian Pohl is Co-Founder and Managing Director at **PACTA/BlockAxs**. BlockAxs is a **legal tech startup** offering solutions to digitize and automate legal documents.

On **Thursday, June 30, 2022**, **Dr. Michael Gebert** will give a lecture. Dr. Gebert is Chairman of the **European Blockchain Association**, Managing Director of the **CrowdSourcing Association** and a **Founding Member of the German CrowdFunding Network**. In his keynote speech, he will deal with **intersections and synergy effects of innovative platform business models and technologies** such as blockchain.

On **Thursday, July 7, 2022**, **Doris Meißner** will give a lecture on the **consequences of digitization for employee representatives**. Doris Meißner is a **lawyer and expert on European works councils**. She worked at the European Federation of Mining, Chemical and

Energy Trade Unions in Brussels. In her lecture, she will present current **social partner activities at German and European level in the field of digitization.**

The lectures will take place from **4.15 p.m. to 4.45 p.m.** via **Zoom**. This is followed by a round of discussion of around 15 minutes. The lectures will be in **English language.**

If you are interested in the talks, please send us a message (**genssler@uni-bremen.de**) and we will send you an access link.
