

Zentrum für Medien-, Kommunikations- und Informationsforschung MA Digital Media and Society

Kommentar zur Lehrveranstaltung im SoSe 2020

Veranstalter*in Dr. Sigrid Kannengießer

Titel (dt.):

Titel (engl.): Datafied Society

Beschreibung:

Within this seminar different processes and phenomena of the „datafied society“ will be discussed and analysed: What is data? What characterizes the datafied society? Who are central actors of the datafied society which reflect on and shape current societies?

The seminar will take place in a digital format and will therefore be organized within a block structure which combines presentations by the lecturer, self-study by the participants and interactive discussions via different e-learning-tools.
