### ALUMNI PRESENTS: OUR COFFEE-TO-GO MUGS

Some of you already marveled at our new Alumni mugs at the discussion on inclusion with senator Dr. Claudia Bogedan – everyone else is encouraged to continue reading. [Read more...](#)

### BERLIN'S SKY...

... has rarely been so blue as on this day! The alumni once more left Bremen early in the morning to spend an interesting and fantastic day in Berlin. [Read more...](#)

### NETWORKING EVENT 'INCLUSIVE SCHOOLS IN THE MIGRANT SOCIETY'

The discussion held in the modern atmosphere of the Cartesium at the University of Bremen was very interesting, highly topical, and well-attended. Alumna and senator Dr. Claudia Bogedan, alumnus and school principal Carsten Dohrmann, Prof. Dr. Yasemin Karakaşoğlu, and alumna Prof. Dr. Natascha Korff gave insight into this topic – our board member Christoph Sodemann chaired the discussion. ## CAMPUS-NEWS

## **XENOS E.V. – THE ASSOCIATION THAT MATTERS!**

We were able to speak to the association's secretary Sigrid Dauks, alumna of history.

The association for the advancement of students from abroad in distress at the universities in Bremen is not quite a catchy title, but a more than important effort. And it has been since 1984! The universities already then realized that international students could also end up in particularly difficult financial situations, which are often even more complicated to solve for them than for their fellow students from Germany. ## **WANTED: BEST BUSINESS IDEAS FROM BREMEN'S UNIVERSITIES!**

Until July 10, 2018, the start-up network BRIDGE will be looking for this year's best submissions to the CAMPUSiDEEN competition. The total prize money is 15,000 Euro. The best business ideas and most outstanding business plans are honored. All alumni (as well as students and staff members) can participate. So it's definitely worth participating! More information can be found [here](#) (German only).

## **SUMMER, SUNSHINE – AND ENJOYMENT... A SUMMER FÊTE FOR THE SENSES**

Our summer fête takes place on August 24, 2018 (6:00 to 10:00 p.m.) and at a very special location. The B-Human team of the University of Bremen and the German Research Center for Artificial Intelligence (DFKI) will stop by for a visit. Don't miss out: Bring your partner and your children and join us! [Read more...](#)

## **DOING GOOD IN ADVANCING YOUNG FEMALE REFUGEES...**

...even beyond the grave. This is what motivated Helga Grubitzsch to stipulate the establishment of a trust foundation in her testament. This advancement impresses us and fills us with respect. If you are interested in finding out more about this generous and lasting decision of the former lecturer for French literature: [Read more...](#)

## SCIENCE MEETS ARTS – GIVING CHANCE A SYSTEM

Art, science, and a lot of curiosity are needed at the collaborative research center 1232 'From Colored States to Evolutionary Construction Materials' of the University of Bremen. It is a research alliance organized across institutes and departments. Together with the communication design school Kunstschule Wandsbek, the university explores new horizons in this CRC.

## NEW MASTER'S WITH THE SPECIALIZATION 'DIGITAL SOCIETY' STARTS

'Digital Media Society' is the name of the new English Master's degree starting this winter semester. It focuses on the digital society and is the only one of its kind in Germany. Bremen once more places itself at the forefront of the educational landscape as a trendsetter and an important driving force for managers in key positions. [Read more...](#)

## CHE RANKING 2018: EXCELLENT RESULTS

We have by now almost gotten used to outstanding results in the CHE University Ranking (Centre for Higher Education). 2018 was no exception: top rankings in the student assessments, high quality in research and teaching, and numerous courses of study with an excellent reputation. Not just in the geo sciences (top rankings in seven areas!) but in many other fields the university proved excellent. [Read more...](#)

## PROMAT - MASTER'S PROGRAMME PROCESS-ORIENTED MATERIALS RESEARCH

Students in the new Master's degree ProMat (Process-Oriented Materials Research) are given greater freedom. Starting this winter semester, the university will offer a completely new, interdisciplinary Master's program in the STEM subjects. Students are taught at an early stage how to use the international economic networks – next to working academically – and to combine these two aspects. You can read more about this novel approach [here](#).

## SCIENTISTS RESEARCH EUROPE'S LARGEST SOURCE OF METHANE

© Heinrich Bovensmann  
/ Universität Bremen

Researchers from Bremen and Berlin pose at the airport in Katowice after their first successful measurement flight across Upper Silesia. In the background: the research plane of Freie Universität Berlin, carrying the sensor 'MAMAP' (Methane Airborne MAPer) developed at the University of Bremen. The Upper Silesian coal district in Poland is where the researchers explore Europe's largest source of methane. The team from the University of Bremen and Freie Universität Berlin are currently excited about their novel methods and the sensor that is unique in the world. [Read more...](#)
