

2nd International Decision-Making Week

„The Future of Decision-Making: AI, Governance & Ethics“

Two-Phase Programme:

Online Sessions (6, 13, 20 Nov 2026, 14:00–16:00) & On-Site Week (23–27 Nov 2026, Bremen)

Foto: Drazen_/ istockphoto.com

How are decisions shaped in a complex, technology-driven world?

This interdisciplinary event explores decision-making at the intersection of AI, governance, and ethics.

What to expect:

- » Experiments, case studies & site visits
- » Insights from research & practice
- » Interdisciplinary exchange across economics, law, politics, philosophy & AI

Open to graduate and advanced undergraduate students (3 ECTS) in Decision Making, Political Science, Economics, Law, Philosophy, and related fields.

Also available for professionals (continuing education).
