Information on the Final Report

Please Note:

The final report is important both for the coordinators to evaluate the Erasmus+ programme and for your fellow students to prepare for their stay abroad. Ask yourself what information you were looking for before going abroad.

Please sign the declaration of consent by hand. Typed names do not count as a signature.

Upload the declaration of consent and the final report separately as a .pdf file in Mobility Online and send one copy by e-mail to the departmental Erasmus coordinator.

Length: at least 3 pages of text

Please address the following points:

- **Preparation** (preparation time, research, deadlines at the host university, etc.)
- **Formalities in the host country** (documents, certificates, residence permit, contact to the authorities (e.g. for applications for visa/residence permit), bank account, housing allowance, if applicable, other financial support options etc.)
- **General information about the host university** (location/arrival, orientation week/information events for Erasmus students, support/contact persons, enrolment, campus life, leisure activities, cultural events, etc.).
- **IMPORTANT: Course choice/course offer/restrictions for ERASMUS students**, (e.g. course choice at other faculties/course change possible? Deadlines for registering for courses/course changes: when were courses available online and where (link)? Additional information, e.g. about exams, language, special tips for seminars/courses that are particularly suitable/unsuitable for Erasmus students, etc.) Please remember that as a former exchange student you can best provide essential information for future students.
- **Accommodation** (What to keep in mind when looking for accommodation, recommendations, websites, apps, halls of residence/private accommodation/short-term accommodation, location/facilities/costs, etc.).
- **Other** (special experiences, transport, student jobs, safety tips, internet, problems/suggestions/personal recommendations etc.).
- **After returning** (e.g. recognition of academic achievements, transcript of records, etc.)
- **Conclusion** (How did the stay abroad influence you? Motivation and goals for this particular choice of university/country; what impact did your experiences during your stay have on your further studies, your professional considerations or possibly your personal future?)

Many returnees like to talk personally about their many experiences and adventures. Conversely, it is particularly interesting for students to hear first-hand experiences from fellow students.

Would you be willing to tell other students about your experiences at events organised by the International Office (e.g. University Fair, International Day)? Then please write an email to: euprog@uni-bremen.de
