Our History

Founded in 1881, the University of Liverpool is the original 'redbrick' university. We are one of the founding members of the prestigious Russell Group, comprising the top 24 research-intensive universities in the UK, and we rank in the top 200 universities worldwide for internationally recognised research. We are certain that with us you will have a world-class academic experience at an institution with a distinguished and proud history.

Our Expertise

The University of Liverpool is a world-class player in many areas of academia. In science and engineering, we were a key partner in the discoveries at the CERN reactor in Switzerland and some of the world leaders in chemistry are based at our University. We are home to one of the UK's top departments of Archaeology, Classics and Egyptology, the only Institute of Irish Studies outside of Ireland and an AACSB-accredited Management School. Liverpool is at the forefront of innovative treatments and healthcare, including developing new drugs to tackle the Ebola virus, and treatments to create a personalised approach to healthcare.

Our Facilities

The University has two major libraries, the Sydney Jones and the Harold Cohen, which between them contain over 2.5 million resources. The libraries are open 24/7 during term time.

Our award-winning Central Teaching Laboratories offer cutting-edge learning opportunities for students who take classes in environmental sciences, physical sciences and archaeology. Students have access to over 2,000 PC's across campus, high speed Wi-Fi, virtual chat and project work support through our Virtual Interactive Teaching at Liverpool (VITAL).

LIVING ABROAD IN Liverpool

HISTORY OF LIVERPOOL

The history of Liverpool can be traced right back to 1190. It is here where the River Mersey meets the Irish Sea and the city is steeped in maritime history. Liverpool remained a small settlement until it established successful trade routes with Africa and the West Indies, India and the Far East.

Over the next two centuries the volume of trade passing through the docks saw Liverpool grow into one of Britain's most important cities and it became known as 'the New York of Europe', reaching its pinnacle of economic success at the start of the twentieth century. Due to the importance of the docks, the city suffered relentless bombing during World War II, a blitz second only to London's.

Starting in the early 1960s, the city became internationally renowned for its youth culture, particularly music and the distinctive "Merseybeat" sound which became synonymous with The Beatles.

Liverpool's impressive waterfront is a UNESCO World Heritage Site and this city, named as the European Capital of Culture 2008, now has a global reputation for sport, music, and architecture. The people of Liverpool are strong-willed and determined, famously friendly and welcoming, witty and most of all, intensely proud of their city.

WHAT DO OUR STUDENTS HAVE TO SAY?

I chose the University of Liverpool because of its location. Liverpool is in the north of England, making travelling within the UK and Ireland extremely easy. I spent so many weekends in Scotland, Ireland, and Wales because they were all within a few hours on a cheap train or plane. It made travelling every weekend a feasible option which was extremely attractive to me.

My favourite thing about living in Liverpool was the culture around the city. Everyone in the city and at the University was so kind and welcoming. Most importantly they were all proud of their city and just wanted to show that to everyone. It was an amazing environment to be in.

Brett
Dalhousie University, Canada

I chose to study abroad in Liverpool partially because I thought it wouldn't be too overwhelming as English is spoken in the UK and there are a lot of similarities to the US. I also heard that London can be expensive and might not reflect the culture of the UK as a whole. Liverpool was small enough that I knew I could get to know it well, but large enough that there was lots to explore and be introduced to.

My favorite thing about Liverpool was the ease of living there. Everything was accessible – groceries, restaurants, shops, night life, and fun activities. These were all in walking distance and I almost never had to use public transport. This allowed me to take advantage of everything Liverpool provided because most things were a quick and enjoyable walk away.
