2,200,000 hab.

The Basque Country, located at the centre of the Atlantic Axis, offers a magnificent opportunity for studying, leisure and working, in a friendly and safe environment.

A temperate climate, a powerful natural landscape. Our customs, culture and gastronomy make us an unbeatable choice.

In short:

- A welcoming location
- A place to study, research, work
- A place to live

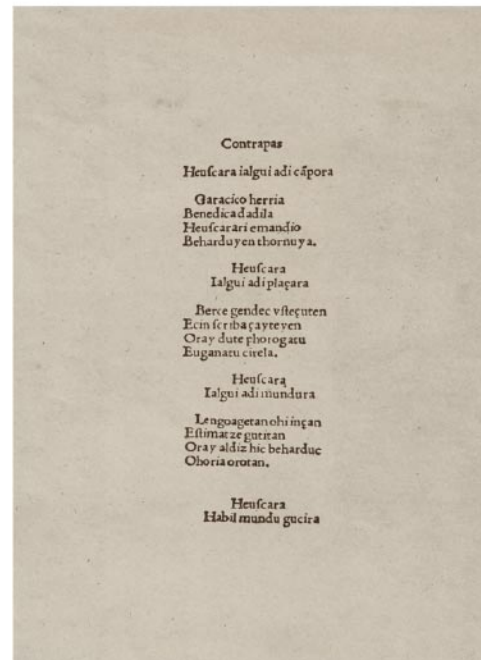

The Basque people has one of Europe's oldest cultures, a culture that fills us with pride.

It is the source of very specific values, a special way of looking at and understanding life, an honest way of facing the challenges that are to come.

Values that are the necessary drive to advance down the path set and to remain faithful to our convictions.

We combine the preservation of the Basque language, a millenary language, with a long industrial tradition and a top-level public university system.

but also friendly,
generous...*

Today, the economic development of our country is founded on a commitment to technology, quality services, innovation and knowledge.

In this context, **the contribution of our university, the University of the Basque Country, is fundamental.**

The professionals we train have been at the forefront of the economic, social and cultural development of our country, leading its scientific and technological research, as well as its higher education.

Choosing Eduardo Chillida to design the emblem of our university was one of our earliest good decisions.

Evoking the Tree of Science, our symbol projects out to the world the fruits of knowledge. This image condenses the university's spirit, a university created as a social service.

Chillida, one of the most universal Basque artists, embodies in the strength of his work the character and the values that identify us as a society, as a country, as a university.

Chillida's work is full of power, determination and a constant search for an ideal that is yet to be reached...

As attested by the motto accompanying the emblem:

Eman ta zabal zazu.

Create knowledge and disseminate it.

We believe in the capacity for transformation of the university and in the responsibility it has towards society.

We believe in a university that researches and innovates, with a strong involvement in the industrial fabric and with close ties to technology and research centres.

We believe that our students must acquire the knowledge and the tools necessary to build an advanced, egalitarian, balanced, committed and enterprising society.

We are working towards that goal

To achieve it, the University of the Basque Country, comprising three campuses in Álava, Biscay and Gipuzkoa, offers a framework for studying, for research, which strives at all times for excellence, constant improvement, and capable of materialising its efforts.

professionals

The University of the Basque Country offers its students highly specialised and competitive graduate and postgraduate degrees in all fields of knowledge.

It is the leading research institution in its region, placing it among the world's 500 top universities, according to Shanghai Ranking.

Along with teaching and research, the University of the Basque Country promotes the arts and social responsibility, it encourages entrepreneurship and has an influence on the most current political and social debates.

ACADEMIC OFFER

70 Degree courses in all fields of knowledge

120 Masters degrees

65 PhD programmes In Basque, Spanish and English

Over 300,000 professionals from all fields of knowledge have already graduated from our university, people who hold positions of responsibility in companies, administrations, universities and social organisations.

This is in addition to a singular teaching project, the IKD model, a model that promotes autonomy in learning but which demands, at the same time, greater requirements of the students.

RESEARCH

+1,500 mobility agreements with institutions of 60 countries

Erasmus programme

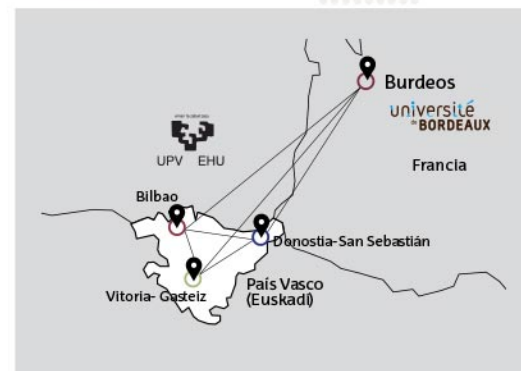

1,000 Students sent **475** Students received

Latin America and other destinations

+300 Students sent **+200** Students received

Language courses for visiting students

Buddy programme

But our work does not end here. The University of the Basque Country, has a commitment to society as a whole.

That is our commitment:

A UNIVERSITY COMMITTED TO YOU AND TO ITS SURROUNDINGS

Nothing makes us prouder than helping to build the country we want to live in.

Nothing makes us prouder than sharing what makes us special.

There is nothing we would like more than to count on you to continue along our path...
