

Proposal for a MAPEX PhD Research Grant

Title of the proposal

Name of applicant:

Period of research stay:

Host and host institution:

Supervisor and home institution:

Start and planned end of PhD:

Project idea

Describe the original idea behind your proposal, providing a brief outline of its most significant aspects.

Description of proposal

Provide a brief outline of your proposal's objectives and the planned work schedule, indicating the clear added value for your research project (e.g. additional training, additional experiments, networking, interdisciplinary cooperation). Provide a brief description of what is necessary in order to carry out your proposal and the benefits originating from working in your host's group. If applicable, describe the current status of your PhD research. Please also provide the dates of the start and planned termination of the PhD project at your home institution.

Cooperation partners

Name all the partners who will be involved in the implementation of your proposal (name, university/institution).

References

Provide a list of maximum 10 references related to your application.

The whole proposal text must not exceed two A4 pages.
