In one of the coolest locations in Bremen we are looking for YOU to support our team as:

Data Analyst / Motor Pricing Expert (d/f/m)

movingdots

About us

Founded in 1998 in Bremen, Movingdots is a pioneer in the German telematics industry and has been a subsidiary of Swiss Re since 2015.

With 35 employees, we develop innovative, customer-specific, web-based solutions and smartphone apps for primary insurers, automobile manufacturers and fleet managers in the national and international market place.

The future is closer than you think - and that's why we at Movingdots, together with Swiss Re and a team of ca. 80 professionals, spread across locations in Bremen, Zurich, Milan and Beijing, are working on several insurance solutions which will revolutionize the world of Automotive and Mobility. In particular, we focus our activities around telematics, advanced driving assistance systems (ADAS) and autonomous vehicle by mean of the most advanced technologies.

We offer

- An exciting and varied range of tasks in an international environment
- Thorough and constant support from friendly and qualified colleagues
- The opportunity to work in an agile software development process
- Knowledge of the newest technologies
- A motivated, committed and open-minded team with flat hierarchies
- A friendly, relaxed environment and flexible working hours
- An attractive location with very good infrastructure in the Überseestadt of Bremen
- Very new and modern office space including 34-inch screen, height-adjustable tables, fully equipped kitchen, creative room with a PS4 console, a Nintendo-Switch and much more
- Water, fruit, vegetables, high-quality coffee and lots of tea variations that are always available free of charge
- In Movingdots what you wear is your choice, not ours. Whether it's a suit or sneakers, jeans, T-Shirt, tattoos or piercings. Be yourself, that's whom we want to hire.

PLUS our social benefits *(may vary depending on the position)*:

- Incentive schemes
- Capital accumulation benefits
- Company pension schemes and supplementary health insurance
