Permanent Employment

IT-Consultant Software Development (f/m) in Bremen

Orizon GmbH is your capable partner when it comes to standing out from the crowd on the labour market. With our individual advice you will find the job that suits you best. Being among the top ten German HR service providers, our company's range of services includes the personnel secondment and placement of both skilled workers and executives of all professional fields. Orizon's "Aviation" unit is the specialist for personnel secondment in the aerospace sector and – thanks to its excellent industry experience – offers you interesting perspectives in this field. You have an appropriate qualification and are interested in working in the aerospace sector? Or you already have gained experience in aerospace? Then, we are exactly the right partner for you.

Your responsibilities:

You are acting as a IT-Consultant Software Development & Infrastructure (m/f) for our prestigious client in the field of aerospace industry in Hamburg. In this role you will build and implement software and IT-infrastructure architectures for customers.

- ✦ Coordination and creation of IT-infrastructure setups and extensions
- ✦ Creation of specifications based on a deep analysis of the customer' requirements
- ✦ Installation and configuration of mentioned systems
- ✦ Programming of customer-specific extensions to the existing systems
- ✦ Creating an innovative concept according to the customers' requirements
- ✦ Onsite implementation of the software requirements and infrastructure setups
- ✦ Collaboration with teams according to agile methods (SCRUM)
- ✦ Conduction of software trainings for partners, administrators, users and colleagues

Your profile:

- ✦ Completed studies in informatics, mathematics, computational engineering or a comparable qualification
- ✦ High interest in working as an IT Consultant
- ✦ Excellent knowledge of practical software development and processes (such as JavaEE, frontend technologies, REST services, backend technologies, Embedded Systems with C, C++, C#)
- ✦ Knowledge in IT infrastructures (inter alia network and WebSphere), Windows and Unix or Linux operating systems
- ✦ Agile project management certificates would be beneficial
- ✦ Fluent German and English, both spoken and written
- ✦ Willingness to travel
