

## Software Developer (Aerospace) (f/m)

### in Bremen

Orizon GmbH is your capable partner when it comes to standing out from the crowd on the labour market. With our individual advice you will find the job that suits you best. Being among the top ten German HR service providers, our company's range of services includes the personnel secondment and placement of both skilled workers and executives of all professional fields. Orizon's "Aviation" unit is the specialist for personnel secondment in the aerospace sector and – thanks to its excellent industry experience – offers you interesting perspectives in this field. You have an appropriate qualification and are interested in working in the aerospace sector? Or you already have gained experience in aerospace? Then, we are exactly the right partner for you.

#### Your responsibilities:

You are acting as a Software Developer (Aerospace) (f/m) for our prestigious client in the field of aerospace industry in Bremen.

- Software design and development for Satellite Electrical Ground Support Equipment (EGSE)
- Cooperation with internal project and software teams for definition of the software requirements
- Software unit and system testing
- Customer support for commissioning and operation of the EGSE systems

#### Your profile:

- Engineering degree with a major in electrical engineering, computer technology, space technology or comparable qualifications
- first experience as a Software Engineer
- Experience with software standards, e.g. ECSS-E-ST-40C- or DO-178B Quality Assurance knowledge
- Knowledge of Python, Qt and relational databases
- Experience with Subversion, Git, DOORS and JIRA
- Proficient in software programming, especially in C/C++
- Fluent English, spoken and written
