

Master's Programs: Application

Which Master's Degree Matches My Bachelor's Degree?

An indicative guide is available at www.uni-bremen.de/masteroptions

Online Application

Applications can be submitted online at <https://moin.uni-bremen.de>
You can only apply for one master's program at a time.

Application Deadlines

The application deadlines for **first-semester students are listed** in the table. The application portal opens at least 6 weeks before the application deadline. The table also indicates whether the master's program can be started in the winter or summer semester.

Students wishing to enter at a higher semester can usually apply for either the winter or the summer semester. The deadline for the winter semester is identical to the deadline for first-semester students. The deadline for the summer semester is Jan. 15. Students wishing to enter at a higher semester always have to prove academic achievements in an equivalent master's program amounting to at least 10 CP.

Restricted Admission (R)

Master's degree programs with restricted admission have a limited number of study places. The criteria for the allocation of study places are explained in the respective admission regulations.

www.uni-bremen.de/en/masterprograms

Requirements

- Minimum CPs: This is the number of CPs from the bachelor's degree that must be proven at the time of application. Proof of completion of the bachelor's degree must be provided within two weeks of the start of the semester.
- Language requirement: Proof can usually be provided within two weeks of the start of the semester. Language certificates listed in brackets must be submitted by the application deadline.
- Grades: Minimum grade in the bachelor's degree at the time of application.
- T: An entrance or aptitude test is required.

Double Degree (DD)

In master's degree programs with a double degree, students usually acquire two international degrees. Double degree students must complete part of the curriculum at a foreign university.
