**Description:**
The Research Group ‘Deliberation, Valuation & Sustainability’ at the Leibniz-Center for Tropical Marine Research in Bremen seeks a student assistant to support the research project “Transdisciplinary Science for Sustainable Tourism (TransTourism).” This interdisciplinary and transdisciplinary BMBF-funded project is led by Prof. Dr. Marie Fujitani and aims to explore interconnections between the global tourism economy and local environmental problems in emerging economies, and to analyse the decision-making process to find solutions through a transdisciplinary and collaborative process with local stakeholders. The TransTourism project is presently seeking a Student Assistant to provide support to the project team in literature review, data management and analysis, and administrative tasks.

**Tasks**
- Assisting in literature review;
- Supporting data entry and management as well as basic data analysis;
- Editing transcripts of interviews conducted in English (and possibly Spanish or Indonesian);
- Providing a short summary of interviews using a template provided;
- Providing administrative support;
- Updating workgroup website and social media;
- Potentially checking texts in German

**Your profile**
- Master’s students, Bachelor’s students in later semesters, with relevant background (e.g. Geography, Sociology, Political Sciences, Environmental Social Sciences, Anthropology, or any related interdisciplinary work);
- Advanced written and spoken communication skills in English;
- Proficiency in MS software, preferably experience of handling long or complicated documents;
- Highly organized, responsible and motivated;
- Enjoy working in a team.
Desirable requirements:
- Social media skills;
- Advanced written and spoken skills in German, Spanish or Indonesian.

Job description
- The contract will last for two months with possibility of extension;
- The candidate will work for 42 hours per month, or an agreed number of hours;
- The salary is according to the German minimum wage.
